**Providing Quality Building Industry Education in
Northern Minnesota Since 1997**

Quality Education

The Northern Minnesota Builders Association has been providing building industry education since 1997 in Northern Minnesota. The NMBA continues to provide quality education courses to the industry professional by offering a variety of continued education courses and topics taught by leading professionals.

Convenience

The NMBA offers local Continuing Education locally to eliminate travel for your company and employees. To avoid confusion with the 2-year license renewal requirements, the NMBA provides 7 hours annually to meet your time requirements regardless of renewal year.

NORTHERN MINNESOTA
BUILDERS ASSOCIATION

About Us

The Northern Minnesota Builders Association is a non-profit Membership Organization. Founded in 1993, The NMBA is one of eleven Home Builder Associations in Minnesota. The NMBA is governed by the Builders Association of Minnesota (BAM) and the National Association of Home Builders (NAHB). The NMBA territory includes the following counties: Itasca, Koochiching, St. Louis, Lake of the Woods and Aitkin. The NMBA mission is to promote professionalism and to educate, improve and support the building industry in Northern Minnesota. For more information, [visit nmbuilders.com](http://visitnmbuilders.com)

We Provide More

The NMBA offers your company more for the money and better quality instruction that cannot be found online. A full day registration includes:

- 7 hrs Contractor Continued Education—Includes Energy (pending approval through the MN Dept. of Labor & Industry).
- Multiple Class offerings by accredited instructors.
- The latest building industry & business topics
- Rolls & Coffee at registration / Lunch
- Table Top Expo

Education Sponsor:

The Table Top Expo is a product show geared specifically toward the Building Contractor. The Show is NOT part of the Continued Education requirements. The show is located in a separated space away from the classroom with the latest in building industry products and services. Attendees can register to WIN PRIZES given away at the Hospitality Social.

Contractor License Requirements

MN Dept of Labor & Industry

CE requirements - Residential builders (QB), remodelers (QC), roofers (QR) Minnesota Statutes [326B.0981](#); [326B.821](#)

- Course content must demonstrate significant intellectual or practical content and deal with matters directly related to residential construction, work-force safety, or the business of running a company in the residential construction industry.
- 14 hours appropriate and related knowledge in residential construction, including applicable federal and state laws, rules, and regulations.

Individuals can determine their personal qualifying person identification number at [DLI's License Lookup](#) by searching their contractor's license number or their name.

- One (1) hour of the 14 hours must include instruction related to energy codes or energy conservation measures applicable to residential structures.
- One (1) hour of the 14 hours must include a business related approved credit.
- CE hours must be completed during the qualifying person's registration period.
- CE hours may be completed at any time during the two (2) year period.

CE courses not approved by DLI may be accepted for credit by submitting an [individual course application \(PDF\)](#) and a certificate of completion along with all course materials.
